

Warehouse

It's not *how much* space. It's *where* do you need space?

Integral to any supply chain, the **Valley Warehouse** division offers options for short-term, long-term, temperature-controlled, and secured storage to meet our clients' specific needs.

- **Full visibility to inventory, transaction history, and tracking through to delivery in real-time**
- **Flexible integration solutions with API, EDI, or custom mapping to your specifications**
- **Ability to quickly expand into new markets to provide scale today and in the future**
- **End-to-end transportation solutions through Valley Logistics that optimize client spending and drive efficiencies**

Our team of experts will work with you to fully understand your warehouse and logistics challenges. Valley will design a solution that fits your supply chain strategy today and tomorrow.
