

*Xtend your solutions.  
Xtend your value.  
Xtend your business.*

If you're a provider looking to extend your customer solutions beyond your core capabilities or a shipper looking for customized services to expand your business, the Xtend network is here for you.

▶ **Xtend is the leader in Transportation Management Solutions (TMS).**

---

## *How do we do it?*

- 1) Our talented Xtend team provides unparalleled supply chain management and technology solutions tailored to the specific needs of our Xtend network clients, including customizable TMS and WMS systems, BI reporting, analytics, API and EDI integration and more
- 2) Our extensive and robust partner network, managed by our experienced team, includes over 1 million square feet of warehouse and distribution space across more than 90 locations nationwide, supported by three operations centers and designed for scalability
- 3) Xtend also includes a vast network of carriers that have capabilities across all modes of transportation including:
  - Final Mile • Project Management • International Import/Export
  - Comprehensive Transportation Management including Truckload, Cross-border, Expedite, Drayage and LTL

Xtend is your strategic partner for addressing supply chain challenges with innovative, end-to-end solutions, all powered by our talented and experienced team.
